

# Slatz

## Interior Directory System

- Wall-mounted directories
- Suspended directories
- Projecting signs
- Desktop signs

**The Slatz directory system is nothing short of a design classic. So simple, yet so versatile.**

Slatz directories can be installed just about anywhere. Alcoves and inconvenient architecture are no problem for the unique face-fitting components of the Slatz sign system. Slatz directories can even be recessed. Slatz components can be used to create everything from a single desktop sign to an entire programme of co-ordinating interior directories. Wall-mounted or free-standing; projecting or suspended; single or double-sided; the Slatz directory system does it all. Which is why Slatz is the preferred choice of architects, designers and signmakers worldwide.
